6. New Notices of Motion

- **ASAA Zone Report**

One comment from John's update that should be noted:

Volleyball Canada director that is coming from Safe sport is the most intense than any other organization. They were asking the ASAA for help with dealing with Safe Sports. Volleyball is our "Good Child" . Other associations are not as proactive. The Concern that volleyball has brought up that you know are not part of the official volleyball association they may have some history that should prevent them from being around kids. We need to make sure that outside people not affiliated with a set organization may not have to go through the same process to be allowed to be involved in sports.

-Please make sure your coaches have their NCCP numbers updated in the system. Currently a lot of coaches do not have it listed in the SRS even though they have the required courses.

- **A.S.A.A. Notices of Motion** -See attached notice of motions- John Paton walks us through the motions. We stop to allow Parrish and Dave speak about their NEASAA motion.
- **N.E.A.S.A.A. Notices of Motion** - Volleyball (Parrish and Dave)

Parish and Dave- 11:45am-

Came to speak to us about their notice of motion.

This is coming from the place of the assignors charging students too much for the services provided.

After they spoke we had lunch and when we joined back together in the theater. A couple more questions were asked and then Parish and Dave were asked to leave the room while we discussed the notice of motion.

After discussion Daryn decided to table it and it was seconded by

Straw vote: It was supported with almost every body and a few members not voting. No one is against it.

After we discuss the NEASAA motion John Paton resumes going over the ASAA notice of motions.
